

# CONSTITUTIONHILL

Birthplace of the most liberal constitution in the world.

## ABUNDANCE AT WORK

Official provider of experiences that empower leaders to bring dignity, care and abundance to work.

### Free your potential on The Hill

We help businesses build solutions that improve the world of work, unlock abundance and 'free the potential of people'. We design immersive learning experiences in spaces like Constitution Hill that provide fresh and unique perspectives to business leaders, teams and organisations.

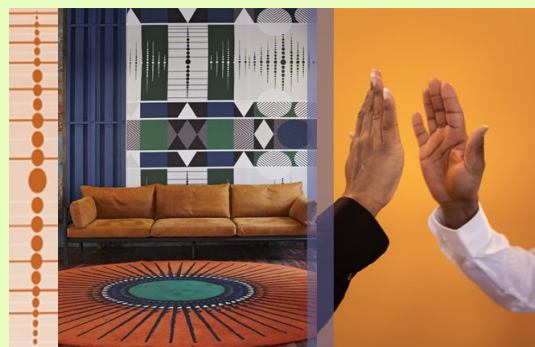

#### Design questions we solve with client teams:

- How does our brand promise reflect our role as corporate citizen?
- How do we instill a culture of care and dignity in our organisation?
- How is our constitutional democracy a lived experience for our organizational stakeholders?
- What mindsets do our leaders need to navigate the future?
- How do our people tap into new ways of knowing to better navigate the world of work?
- How can we avoid copying and pasting solutions from the past to solve the challenges of today and tomorrow?
- How do we measure the future fitness of our people and our organisation?
- How can we use social and collaborative learning experiences to unlock mindset changes in our people?

### Coverage:

Tailor-made learning experiences to support your business with:

- **Just Transitions** - unpacking ESG and other social justice dilemmas in business.
- **Leading in a post-COVID world** –design humanity back into your organization.
- **Connecting your people to company purpose** through story - practical steps to support your people in making work meaningful.
- **Decision making** in high stakes environments – lessons from ConCourt.
- **The Future-Fit organization** - bring the future into your business using Futures tools and thinking.
- **Spaces for dignity** - what Conhill's repurposed space can teach us about re-energizing places and spaces.
- **Transgenerational empathy** - what we can learn from our young people.
- **Cultivating corporate citizenship** as a leadership practice.
