

FUTURE NOW

A product of Abundance at Work

ABUNDANCE AT WORK

WORK ON THE FUTURE

We help businesses build solutions that improve the world of work and unlock people's abundance.

A game on what we want to become

Every business wants to be better tomorrow than it is today. Every individual wants to improve on past performance. Although the future is unknown, you can still craft your *preferred future*. You can plan for it and work towards it. You can achieve future-readiness, by practising Futures Thinking and embedding it in your organisation as a “way of being”.

Navigate near, mid and long-term futures based on various trends and discover more about your individual worldview and how you see the future of your organization and industry.

Duration & Structure: Played over 3.5 hours in small teams of 4-6 with debriefs in plenary (we can accommodate up to 35 people) with the support of professional, facilitators. Each round, moves teams further in time with facilitated debriefs for players to share, discuss and learn from each others' ideas and strategies.

Target Audience: Future-minded individual contributors, managers and leaders at all levels through to Executives, C-suites and Boards will benefit.

Format: Offered in person at a venue of your choice or digitally via MS Teams / Zoom.

Facilitators

Dr Roze Phillips, MBChB, MBA, PGDip: Futures Studies

Roze is a passionate futurist who is highly sought-after as an advisor on the future of work. Her company, Abundance at Work, operates at the intersection of business, technology and innovation. It helps leaders to unleash the business and societal value that emerge from human ingenuity combined with intelligent machines.

Having mentored start-ups in Silicon Valley and collaborated with Singularity University's Peter Diamandis, Roze has also held various leadership positions within Accenture Africa.

She is an Adjunct Faculty Member and Associate of the Centre for Business Ethics and a Non-Executive Director of GIBS Business School. She is also a Non-Executive Director of Netcare Limited and Spear REIT Limited, and a Trustee of Accenture Education Trust.

Gill Cross, BA, MBA, MA: Machine Moral Intelligence

A Director at Abundance at Work, Gill has 30+ years of experience in developing global business leaders. She is adept at managing multi-functional design and development teams, leading them to deliver world-class learning and digital solutions that solve clients' problems. Colleagues and clients describe Gill as creative, smart, wonderfully human and deeply collaborative, with a welcome and inspiring dose of courage.
